RE: Yale Shoppes
21st/Yale Tulsa, OK

Mike – I wanted to thank you for the great job FITZgerald Construction did for me at the Tulsa Shoppes project. I had some concerns about the project given the existing conditions included a building with environmental issues, soils that were in question, and timing was aggressive.

Fortunately, you were able to keep the project on budget and completed it in a very timely manner. Based upon our history with other projects it was not a surprise that you would complete this in great fashion.

Again, thanks for all you have done and continue to do for HGA Holdings, LLC.

Sincerely,

Managing Member
